

Let Our Stretch Leveling Machines Broaden Your Market

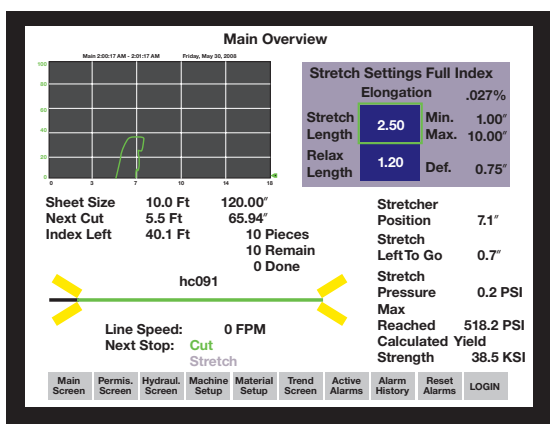

Conceive. Construct. Complete.

Leveltek Stretch Leveling Machines can help you provide cut sheets that satisfy your fabricators' increased demand for **memory-free material** required by laser and plasma cutting.

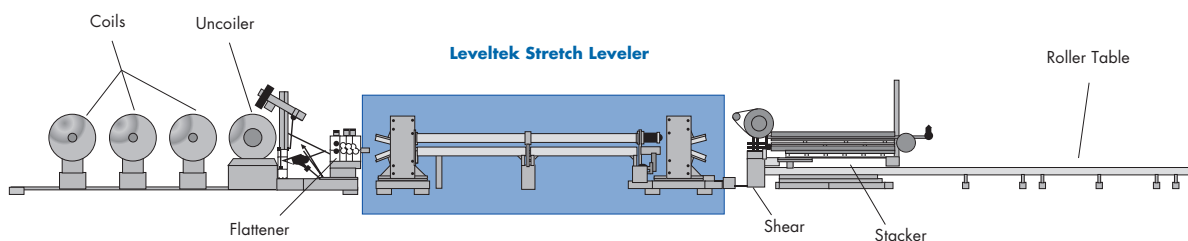

On a **new or existing cut-to-length line**, you'll be able to handle light and heavy-gauge products, including HSLA grades, that require stretching to near-perfect, memory-free flatness.

Leveltek Stretch Levelers offer:

- > Highly-reliable turnkey solutions
- > Real-time graphical feedback (as shown on the left)
- > Fast installation
- > Modular design
- > Standard components

New Cut-to-Length Line

If you're considering a stretch leveling machine for a new or existing cut-to-length line, call **304.232.8530**, e-mail sales@leveltekint.com or visit us online at www.leveltekint.com
